PACIFIC RIM INSTITUTE OF MARINE ARTISTS [PRIMA]

A Collaboration with the Foss Waterway Seaport Museum

Tacoma, Washington: Opening mid-February, the Foss Waterway Seaport Museum will host an ongoing fine art installation featuring regional and international marine artists from around the Pacific Rim. PRIMA members will curate fine art shows, support fundraising functions and a significant International Exhibition later this year. Artworks include contemporary, historical, and plein air formats in a wide range of subjects from Canada, Hawaii, Australia, New Zealand and America.

“We are excited to welcome PRIMA artists. Their work is extraordinary and will bring a beautiful and important new element to our museum” Wesley Wenhardt, Director.

Visitors will be able to purchase artworks with a portion going to support the museum. They may also preview artwork at www.primaonline.org and reserve for purchase.

If you would like more information or would like to explore becoming a member, please contact CR Bryant or co-founder Austin Dwyer at 206.947.8705 in Mukilteo.

Image files and information available at www.primaonline.org. A review of the installation at Foss may be seen at <https://www.artworkarchive.com/artwork/prima>
